

Public Statement

Statement concerning racial violence on Indian students community in Australia

CCLP Worldwide condemns alleged "racist" attacks on Indian students in Australia and urged the Australian authorities to stop such attacks and punish the attackers.

CCLP Worldwide has been appalled by the attack on Indian student community in Australia.

We like to urge the Australian authorities that such attacks should not be permitted and that it is their responsibility to ensure the well-being and security of students in Australia.

We also like to appeal to the people of Australia for maintaining peace and cordial relation with the students of Indian origin in Australia.

We believe that education is the foremost tool to development and it should not be hampered like this.
